

Keeping Medicare Affordable in Alaska

Every day, the [Medicare Improvements for Patients and Providers Act](#) (MIPPA) helps people with Medicare afford their prescriptions, premiums, and doctor visits.

Who MIPPA Helps in Alaska

12,683 Medicare beneficiaries connected to benefits

34,414 Medicare beneficiaries living at or below \$22,500
(150% of the federal poverty level)

V.E's Story

V.E. was seeking essential aftercare treatment following a breast cancer diagnosis. Although V.E. had Medicare, some critical post-treatment services were not covered. They attempted to apply for Medicaid but encountered difficulties navigating the process. A benefits counselor guided them through the application, ensuring all required information was submitted correctly. Medicaid was approved, allowing V.E. to continue their recovery without financial burden.

What MIPPA Does

-  Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays
-  Promotes preventive health services and screenings
-  Keeps older adults healthy and out of hospitals

Potential Medicare Savings through MIPPA

One of the main components of MIPPA is to connect eligible Medicare Beneficiaries to programs to help them afford prescription drugs through Medicare Part D. Research shows that having prescription drug coverage through Medicare Part D could reduce hospitalization rates by 7%.¹ With an average Medicare hospital stay costing \$14,700,² connecting individuals to prescription drug coverage could create significant health care savings for both the patient and the government.

How MIPPA is Delivered in Alaska

- 1 [State Health Insurance Assistance Program](#)
- 6 [Area Agencies on Aging](#)
- 1 **Benefits Enrollment Center**
 - [Anchorage Senior Activity Center](#)

How to Access Benefits Online

BenefitsCheckUp is a free tool where individuals can see if they may be eligible for these money-saving programs.
