Noah's Story

Noah, a triple bypass patient, was experiencing high prescription drug costs—approximately \$600 per month for just two of his 13 medications. A benefits counselor screened him for Medicaid eligibility and helped him complete an application for the Medicare Savings Program and Extra Help. Within 30 days, Noah was approved for the Qualified Medicare Beneficiary (QMB) program and Medicaid began paying for his Medicare Part B premium and 20% coinsurance. He also qualifies for prescription drug coverage, and his monthly cost is an affordable \$50 per month.

What MIPPA Does

Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays
