

Keeping Medicare Affordable in Nevada

Every day, the [Medicare Improvements for Patients and Providers Act](#) (MIPPA) helps people with Medicare afford their prescriptions, premiums, and doctor visits.

Who MIPPA Helps in Nevada

48,075 Medicare beneficiaries connected to benefits

152,722 Medicare beneficiaries living at or below \$22,500
(150% of the federal poverty level)

Charles's Story

Charles was homeless and looking for help finding permanent housing. His Supplemental Security Income (SSI) was being used for back child support. A benefits counselor helped him contact Social Security, and they discovered Charles was eligible for \$11,000 in missed benefits, and he could resume monthly SSI benefits. Charles can now look for permanent housing.

What MIPPA Does

-  Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays
-  Promotes preventive health services and screenings
-  Keeps older adults healthy and out of hospitals

Potential Medicare Savings through MIPPA

One of the main components of MIPPA is to connect eligible Medicare Beneficiaries to programs to help them afford prescription drugs through Medicare Part D. Research shows that having prescription drug coverage through Medicare Part D could reduce hospitalization rates by 7%.¹ With an average Medicare hospital stay costing \$14,700,² connecting individuals to prescription drug coverage could create significant health care savings for both the patient and the government.

How MIPPA is Delivered in Nevada

- 1 [State Health Insurance Assistance Program](#)
- 4 [Area Agencies on Aging](#)
- 1 [Benefits Enrollment Center](#)
 - Catholic Charities of Northern Nevada

How to Access Benefits Online

BenefitsCheckUp is a free tool where individuals can see if they may be eligible for these money-saving programs.
