

Keeping Medicare Affordable in Georgia

Every day, the [Medicare Improvements for Patients and Providers Act](#) (MIPPA) helps people with Medicare afford their prescriptions, premiums, and doctor visits.

Who MIPPA Helps in Georgia

125,107 Medicare beneficiaries connected to benefits¹

630,096 Medicare beneficiaries living at or below \$23,475 (150% of the federal poverty level)

Mr. Chris's Story

Mr. Chris called the benefits hotline requesting assistance with his Specified Low Income Medicare Beneficiary (SLMB) renewal. Because the income limits changed, Mr. Chris was approved for Qualified Medicare Beneficiary (QMB) benefits. SLMB and QMB are both Medicare Savings Programs. The benefits mean Mr. Chris will have his \$185 Medicare premium paid, and he will receive coverage for his deductibles and coinsurance. A benefits counselor also filed a separate application on his behalf to make sure he received the Low-Income Subsidy to help pay for his medications.

What MIPPA Does

Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays

Promotes preventive health services and screenings

Keeps older adults healthy and out of hospitals

Government Savings

Research shows that having prescription drug coverage through Medicare Part D could reduce hospitalization rates by 7%². With an average Medicare hospital stay costing \$14,700³, connecting individuals to prescription drug coverage could create significant health care savings for the federal government.

Individual Savings

In 2025, MIPPA saved individuals \$8,400 annually in out-of-pocket health care costs. With the average monthly Social Security payment at \$1,924 in Georgia⁴, MIPPA can significantly improve older adults' budgets.

MIPPA Funding for Georgia

Each year, MIPPA provides \$1,679,906 in funding to state and area agencies on aging (AAAs) and local nonprofit organizations.
