

# Keeping Medicare Affordable in Connecticut

Every day, the [Medicare Improvements for Patients and Providers Act](#) (MIPPA) helps people with Medicare afford their prescriptions, premiums, and doctor visits.

## Who MIPPA Helps in Connecticut

**83,628** Medicare beneficiaries connected to benefits

**183,128** Medicare beneficiaries living at or below \$22,500  
(150% of the federal poverty level)

### Sally's Story

Sally's spouse passed away, drastically changing her finances. A benefits counselor completed a BenefitsCheckUp on her behalf and found she was eligible for the Medicare Savings Program (MSP), as well as food benefits and energy assistance. Once she was approved for the MSP, the counselor also assisted her with her Medicare options for 2025.

## What MIPPA Does

-  Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays
-  Promotes preventive health services and screenings
-  Keeps older adults healthy and out of hospitals

## Potential Medicare Savings through MIPPA

One of the main components of MIPPA is to connect eligible Medicare Beneficiaries to programs to help them afford prescription drugs through Medicare Part D. Research shows that having prescription drug coverage through Medicare Part D could reduce hospitalization rates by 7%.<sup>1</sup> With an average Medicare hospital stay costing \$14,700,<sup>2</sup> connecting individuals to prescription drug coverage could create significant health care savings for both the patient and the government.

## How MIPPA is Delivered in Connecticut

- 1 [State Health Insurance Assistance Program](#)
- 5 [Area Agencies on Aging](#)
- 1 [Benefits Enrollment Center](#)
  - Senior Resources Agency on Aging

### How to Access Benefits Online

BenefitsCheckUp is a free tool where individuals can see if they may be eligible for these money-saving programs.
