

Keeping Medicare Affordable in New Mexico

Every day, the [Medicare Improvements for Patients and Providers Act](#) (MIPPA) helps people with Medicare afford their prescriptions, premiums, and doctor visits.

Who MIPPA Helps in New Mexico

32,151 Medicare beneficiaries connected to benefits

159,917 Medicare beneficiaries living at or below \$22,500
(150% of the federal poverty level)

Karen's Story

I work for a State Health Insurance Assistance Program, and the MIPPA funding is literally what keeps some of my clients going. Without this funding, some Medicare beneficiaries will need to make life-or-death decisions based on what they can afford. Medicare is far too complex for most beneficiaries to navigate on their own.

What MIPPA Does

-  Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays
-  Promotes preventive health services and screenings
-  Keeps older adults healthy and out of hospitals

Potential Medicare Savings through MIPPA

One of the main components of MIPPA is to connect eligible Medicare Beneficiaries to programs to help them afford prescription drugs through Medicare Part D. Research shows that having prescription drug coverage through Medicare Part D could reduce hospitalization rates by 7%.¹ With an average Medicare hospital stay costing \$14,700,² connecting individuals to prescription drug coverage could create significant health care savings for both the patient and the government.

How MIPPA is Delivered in New Mexico

- 1 [State Health Insurance Assistance Program](#)

- 4 [Area Agencies on Aging](#)

- 3 Benefits Enrollment Centers

[Adelante Development Center, Inc.](#)

[Native American Disability Law Center](#)

[Rio Arriba](#)

How to Access Benefits Online

BenefitsCheckUp is a free tool where individuals can see if they may be eligible for these money-saving programs.
