

Keeping Medicare Affordable in Texas

Every day, the [Medicare Improvements for Patients and Providers Act](#) (MIPPA) helps people with Medicare afford their prescriptions, premiums, and doctor visits.

Who MIPPA Helps in Texas

255,327 Medicare beneficiaries connected to benefits¹

1,568,769 Medicare beneficiaries living at or below \$23,475 (150% of the federal poverty level)

Debbie's Story

Debbie, 71, lived in her car, a nursing home, and then in an unregulated board and care home. A benefits specialist did a deep dive into Debbie's life and realized she was eligible for the Medicare Savings Program and several other programs. After building trust with Debbie through frequent phone calls and home visits, the specialist was able to help Debbie apply for and enroll in the programs, bringing stability to her life.

What MIPPA Does

Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays

Promotes preventive health services and screenings

Keeps older adults healthy and out of hospitals

Government Savings

Research shows that having prescription drug coverage through Medicare Part D could reduce hospitalization rates by 7%². With an average Medicare hospital stay costing \$14,700³, connecting individuals to prescription drug coverage could create significant health care savings for the federal government.

Individual Savings

In 2025, MIPPA saved individuals \$8,400 annually in out-of-pocket health care costs. With the average monthly Social Security payment at \$1,932 in Texas⁴, MIPPA can significantly improve older adults' budgets.

MIPPA Funding for Texas

Each year, MIPPA provides \$5,220,548 in funding to state and area agencies on aging (AAAs) and local nonprofit organizations.
