

# Keeping Medicare Affordable in Colorado

Every day, the [Medicare Improvements for Patients and Providers Act](#) (MIPPA) helps people with Medicare afford their prescriptions, premiums, and doctor visits.

## Who MIPPA Helps in Colorado

**232,179** Medicare beneficiaries connected to benefits

**37,636** Medicare beneficiaries living at or below \$22,500  
(150% of the federal poverty level)

### Karen's Story

Karen, a former engineer, faced a life-altering challenge when she suffered a brain injury during surgery. At 63, she worked tirelessly to rebuild her life, living independently on just \$1,225 a month. Karen turned to a benefits counselor for help applying for energy assistance, and she received step-by-step assistance. The counselor “gave me the tools and encouragement to rebuild my life,” Karen said. “Their services aren’t just helpful—they’re lifesaving.”

## What MIPPA Does

-  Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays
-  Promotes preventive health services and screenings
-  Keeps older adults healthy and out of hospitals

# Potential Medicare Savings through MIPPA

One of the main components of MIPPA is to connect eligible Medicare Beneficiaries to programs to help them afford prescription drugs through Medicare Part D. Research shows that having prescription drug coverage through Medicare Part D could reduce hospitalization rates by 7%.<sup>1</sup> With an average Medicare hospital stay costing \$14,700,<sup>2</sup> connecting individuals to prescription drug coverage could create significant health care savings for both the patient and the government.
