

## Keeping Medicare Affordable in Michigan

Every day, the [Medicare Improvements for Patients and Providers Act](#) (MIPPA) helps people with Medicare afford their prescriptions, premiums, and doctor visits.

### Who MIPPA Helps in Michigan

**64,449** Medicare beneficiaries connected to benefits

**604,290** Medicare beneficiaries living at or below \$22,500  
(150% of the federal poverty level)

#### Kate's Story

Kate, age 75, had an income of just under \$1,200 per month. She had a part-time job, but was unable to make ends meet. A benefits counselor helped Kate apply for the Medicare Savings Program and food benefits. She was approved for both, which put \$209 back into her monthly budget. Kate now has the support she needs to afford health care and groceries.

### What MIPPA Does

Connects eligible individuals to benefits like the Medicare Savings Program and Medicare Part D Low-Income Subsidy, which help pay for prescription drugs, premiums, and copays

Promotes preventive health services and screenings

Keeps older adults healthy and out of hospitals

## Potential Medicare Savings through MIPPA

One of the main components of MIPPA is to connect eligible Medicare Beneficiaries to programs to help them afford prescription drugs through Medicare Part D. Research shows that having prescription drug coverage through Medicare Part D could reduce hospitalization rates by 7%.<sup>1</sup> With an average Medicare hospital stay costing \$14,700,<sup>2</sup> connecting individuals to prescription drug coverage could create significant health care savings for both the patient and the government.

## How MIPPA is Delivered in Michigan

- 1 [State Health Insurance Assistance Program](#)
- 16 [Area Agencies on Aging](#)
- 1 [Benefits Enrollment Center](#)

Elder Law of Michigan

### How to Access Benefits Online

BenefitsCheckUp is a free tool where individuals can see if they may be eligible for these money-saving programs.
